OFFICE OF INFORMATION
PHOTOGRAPHY DIVISION

PHOTOGRAPHIC SERVICES AVAILABLE

This is an index guide of black and white photographs available from the Photography Division, Office of Information, United States Department of Agriculture.

Also available is a historical file, set up on the same basis as the current one, and Picture Stories or Photo Series, which are leaflets about timely subjects. They contain pictures, captions, and a brief text to tell the story.

A limited number of photographs will be supplied on request to magazine and newspaper editors without charge. Others may purchase photographs at costs given in our price list. Write to Photography Division, Office of Information, U. S. Department of Agriculture, Washington, D. C. 20250.

When visiting the Department, you are invited to review this central photographic service. The Library is located in the Administration Building, Room 412-A. It is open Monday through Friday, 9 a.m. to 5:30 p.m.

Photographs are not copyrighted and can be reproduced in whole or in part with or without credit. The material should not be reproduced in any way to imply endorsement by the Department of any commercial concern or products.

INSTRUCTIONS FOR CORRESPONDENTS:

- - - - -
State clearly and in detail what you want your picture to show (i.e., close-up, field view, aerial, people included, people not included, etc.), State the way the pictures will be used (exhibit to educate town residents; 3rd grade science textbook; college biology textbook; newspaper article for Sunday supplement, etc.). When requesting technical material, such as insects, include scientific and common names when possible, as well as general layman's terms, to help our researchers find your material quickly. Please inform us when substitutes are desired if the exact material is not available.

UNITED STATES DEPARTMENT OF AGRICULTURE

INSTRUCTIONS TO PURCHASERS OF PHOTOGRAPHIC REPRODUCTIONS
(Other than Aerial Photographs)

Reproductions of photographs, maps and charts which have been obtained in connection with authorized work of the United States Department of Agriculture may be purchased from the Department. Requests for news and general illustration photographs should be addressed to the Photography Division, Office of Information, U. S. Department of Agriculture, Washington 25, D. C.

1. Only reproductions of photographs, maps, and charts as have been obtained in connection with authorized work of the Department are available.
2. Since regular Department activities must be given precedence, there may be some delay in filling orders. Normally orders will be filled within fifteen (15) days after receipt.
3. Purchasers shall not use photographic reproductions obtained from the Department to show, by implication or otherwise, that the Department endorses any commercial product. The Department will not furnish reproductions when it is believed they may be used for such purposes.
4. Prices listed on this sheet may be revised from time to time on the basis of the cost of filling the orders. Quotations will be furnished for items not listed. An extra charge may be necessary for excessive laboratory time caused by unusual instructions from the purchaser.
5. Advance payment is required before photographic reproductions will be made. Payment should be made by check, money order, or draft, payable to the Office of Information, U.S.D.A. Include postage cost if air mail or special delivery is desired. Stamps will not be accepted.
6. If for any reason the Department does not furnish reproductions ordered, all moneys received for items not furnished will be refunded.

These prices are established under authority vested in the Photographic Sales Committee as indicated in Paragraph 665, Chapter 5, Section 8-Reproductions, Title 5 of the Administrative Regulations.
